

Tender for the provision of Integrated Rehabilitation Beds, Hertfordshire County Council

Update:

The tender recently advertised by the Integrated Accommodation Commissioning team for Integrated Rehabilitation Beds due to commence in March has been postponed. In our discussions with potential providers it has become apparent that we need to further explore the commissioning model, to bring together the provision of the care home bed, therapy, GP and nursing. We will be holding further discussions with HCPA and the provider market in the coming months to talk through options. Our aim is to tender in the Autumn of 2017 in order to have the new model in place from April 2018.

We would like to thank all providers for their interest in this opportunity to date and we are confident that through this period of further development we will achieve a model which is efficient and effective for providers, commissioners and most importantly the service users.

Rosa Manning
Commissioning Officer
Integrated Accommodation Commissioning Team
