

HCPA Palliative Care Pathway- Dementia and Neurological conditions.

Useful Resources

Marie Curie have a free e-learning website for generalist nurses and carers on palliative care- **Palliative Care Knowledge Zone**.

This website covers all areas of palliative care symptom control, as well as spiritual, social and psychological support. It has advice on specialist areas such as neurological conditions and areas on equality and diversity. The website also links each topic to other e-learning and national documentation on that subject.

<https://www.mariecurie.org.uk/professionals/palliative-care-knowledge-zone>

The topic areas on Dementia, MND, Multiple Sclerosis and Parkinson's can be used as a resource for the material covered today.

Further information can be sourced from the national websites for each Neurological condition discussed today.

Alzheimer's Society – Links to their Factsheets and information documents is below- please remember that they support all forms of dementia.

<https://www.alzheimers.org.uk/get-support/publications-factsheets-full-list>
