

RESOURCE® THICKENUP™ CLEAR

Patient information update

What is the IDDSI framework?

IDDSI stands for the International Dysphagia Diet Standardisation Initiative. The IDDSI framework was founded by a group of experts from around the world who want to make sure that everyone uses the same descriptors and terms for people with dysphagia on texture modified foods and thickened drinks.

Why has the label changed for Resource® ThickenUp™ Clear?

The recommended dosage table has been updated on the tin and sachet boxes to reflect the IDDSI framework.
