

Reporting an outbreak is everyone's business!

If you suspect an acute respiratory infection outbreak in your setting, then this must be reported to UKHSA via the web-based reporting tool.

Don't forget!

- + The reporting tool is used only to report a new acute respiratory infection outbreak or a single confirmed case of Flu in your setting.
- + All other outbreaks of infectious disease must be reported to UKHSA HPT by emailing eastofenglandHPT@ukhsa.gov.uk or call **0300 303 8537**.

Need support?
